

KEDARKANTHA

SNOW EXPEDITION

A snow covered mountain peak beckons you for an experience like never before. The program involves trekking in snow to scale Kedarkantha (12,500 ft). Learn the basics of a snow trek, self-rescue techniques and snow route creation.

Very few instances in life involve huddling with new friends while having a cup of hot chocolate and looking at a majestic sun rise in the Himalayas. An acclimatization trek on camp helps participants adapt to the conditions. Being a self-contained expedition, participants pitch tents to set up camp at a new location everyday. They do their own chores and cook food together and manage resources. A great opportunity to test your limits and nurture new friendships.

KEDARKANTHA SNOW EXPEDITION

- This is a high difficulty level expedition involving trekking and camping in snow.
- This expedition meets the requirement of an IAYP Gold level adventure activity.
- We use internationally certified snow shoes, tents, adequate sleeping bags etc. on the expedition. All equipment required for the trek is provided by us.
- We first opened this program in 2015 and have had over 150 participants safely scale the peak in snow.
- This program is popular due to its snow element. With only 30 seats available, registering early is recommended.

14-17 year old as of 1st April, 2017
The group size is limited to 30

Summer 2017
KES1 (14-17 yrs) 25 Mar-04 Apr
KES2 (14-17 yrs) 02 Apr-12 Apr

Total Rs. 45,500
Includes Rs 6,400 travel fee and all taxes.

The starting point for the program is New Delhi Railway Station. The group travels to Dehradun by AC 3 tier train and onwards to Tons campus in non-AC buses. Outstation participants have to reach Delhi on the day of the departure. Inme can provide airport transfers, and arrange meals at an added cost.

An experienced expedition leader with a group of instructors (including ladies) will lead the group. We maintain a 1:5 adult-child ratio.

During the expedition we have certified wilderness first aid responders as part of the instructor team.

While on the trek, participants are expected to contribute and support with camp chores like setting up, cooking, collecting fire wood, cleaning and packing up as per "Leave No Trace" guidelines.

Other than the days on the inme campus which has fixed tents and toilets, on this expedition based program participants pitch their own tents to set up camp at different locations everyday. There are no fixed toilets and baths on the trek. Toilet tents are pitched in separate areas for boys and girls.

A specific kit list of what to carry is provided at the time of registration.

Inme is India's leading life-skills development organization for children. We run outdoor and adventure based learning experiences for 9-17 year olds. We have six campuses across India that are designed to provide a safe learning environment to help children step out of their comfort zone, while under the care of trained instructors. Other than the on-campus programs we also offer 14 different expedition based (off campus) programs. Currently we work with more than 40 schools across India. Additionally, our open programs enjoy the confidence of over 5000 parents every year.

Inme is founded by alumni of XLRI, INSEAD and the armed forces who are behavioural science practitioners with over 20 years of experience in designing and delivering life skills development programs.
