

The Discover Program at Coorg is an 8-day residential program that engages children with outdoor and adventure activities, community living, and learning interactions for making them Life Ready.

Our Coorg campus is in Honey Valley - a 200-acre private estate in the midst of coffee, cardamom and pepper plantation. It is 27 km from Virajpet, close to the Kabinakad junction. Rock climbing faces, trekking and cycling routes and a ropes course have been developed within the estate.

Participants are divided into four to five smaller groups of 15-18 members. 3-4 Trained and experienced instructors (including lady instructors) take care of each group.

Participants select two activities from A) Rock Climbing OR Ropes Course and B) Wilderness Craft OR Back Packing and engage in them for three days each.

Outdoor activities are conducted in the first half of the day. Post lunch, participants engage in sessions like initiative games, community service, environmental awareness and village visits. Late evenings are for informal events and campfires.
