

# INME SCHEDULE – 2017

Inme offers two levels of programs - Discover and Challenge.

## **Discover Programs**

These are residential programs that are conducted on a specific campus. Our campuses set up across the country have fixed infrastructure and facilities to run these programs safely. Few of the Discover Programs are specifically **First Timer Programs**, designed for 9-12 year olds - to encourage them to step out of their comfort zone and explore the world of adventure and wilderness experiences.

On Discover Programs, participants choose 2 outdoor activities (rock climbing, trekking, mountain biking, ropes courses, kayaking, white water rafting etc.) that are conducted in the first half of the day, in small groups of 15-18 participants. Post lunch, participants engage in other activities that include hobbies, community service, environmental awareness and village visits. Late evenings are for informal activities, campfire, and group interactions.

Campuses have accommodation in tents or dormitories, dining facilities, and fixed toilets and baths with running water. Depending on the location and terrain, designated activity areas and routes help us maintain safety and care. The program is headed by a Campus Chief who has a team of trained outdoor instructors to run their respective activities. A doctor with basic medical facilities is always present on the campus. A campus manager and his staff take care of boarding, lodging and upkeep.

## **Challenge Programs**

These range from 8-23 days and some basic skill and fitness may be needed to enrol in a program.

Challenge Programs typically are not on a fixed campus and participants are on the move, pitch camping tents and set up camps as they progress. They manage their own chores that may include cooking and cleaning, and have to carry their personal and group supplies. Usually, there are no fixed toilets and baths. The program is headed by a trained Expedition Leader and his/her team of instructors, with at least one trained wilderness first-aid responder. The program does not have an accompanying doctor.

The level of challenge is higher on these programs, and participants rough it out more than a Discover Program. The start and end point of the program may be one of our campuses. Other than that, the group is out and away from the fixed campus and the support of campus and administrative staff. The group can be out of mobile range and communication during some days of the program.

# 1 DISCOVER – ON CAMPUS PROGRAMS
