## OUR STORY

When Tarun, Gaurav and Ronny graduated from XLRI in 1992, they knew that they would remain friends. They shared the entrepreneurial bug. And the same values – to do work that felt like play, to have fun and to do something they believed in.

So when they started summer camps together in 1996, they set out to build an organisation that reflected these values. Together, they created a world where young people could play and learn life skills in a safe, challenging but fun environment. Together, they found beautiful sites on hilltops and by riversides. Together, they set up campuses, tents, kitchens, toilets and travel plans. They designed a curriculum full of challenge, reflection, fun and learning.

Now after 27 years of engaging over 1,00,000+ children in outdoor and adventure programs, it has enabled us to create a series of unique and memorable programs that let children discover their true potential. A thrilling mix of adventure, fun and learning - it's an experience unlike any other that you can get in regular life.

Along with Inme's open programs for 9-17 year olds, we have 3 other divisions in our organization focusing on family adventure experiences, schools/educational institutions and corporate training.

Started in 1996, Youreka focuses on collaborating with schools / educational institutions to create experiential learning cycles for their students.

Fostering this desired experiential learning culture across the school is a collective effort that includes working with School Leaders, Teachers, Student Leaders & Students. Through our extensive experience we have created programs and curriculum for all stake holders in the school.
