

DISCOVER PROGRAM - BHILLAR

Our discover program is a residential program aimed to provide unique experiences that cannot be replicated in one's daily life. The program provides a mix of adventure and learning to open a child's mind to do things they could not imagine. These programs run from our campus with greater supervision and more care.

Typically a program has 50 participants on campus who work in smaller activity groups of 15-18 participants under the care of trained outdoor instructors.

There are four activities offered on the program - Rock Climbing, Wilderness Craft, Backpacking, and Ropes Course. Participants experience all activities by spending a day doing each of them.

The chosen outdoor activities are conducted in the first half of the day. Post lunch, participants engage in activities that include community service, environmental awareness or village visits. Late evenings are for informal activities, campfire, and group interaction.
