

EXPLORE PROGRAM - COORG

Our explore program is a residential program aimed to provide unique experiences that cannot be replicated in one's daily life. The program provides a mix of adventure and learning to open a child's mind to do things they could not imagine.

Typically a program has 60 participants on campus who work in smaller activity groups of 15-18 participants under the care of trained outdoor instructors.

Participants select two activities from the activities offered on the program - Rock Climbing OR Ropes Course, Mountain Biking, Wilderness Craft, and Back Packing.

The chosen outdoor activities are conducted in the first half of the day. Post lunch, participants engage in activities that include community service, environmental awareness or village visits. Late evenings are for informal activities, campfire, and group interaction.
