

OCT 2021 - JAN 2022 Schedule

Inme is a trusted and loved adventure and experiential learning program for children. For years inme has delivered safe, meaningful, exciting, thrilling, and fun programs for children in the 9-17 years age bracket. With due consideration and Covid-19 safety protocols, we have designed the 2021/22 winter program schedule.

Our schedule will however be limited in terms of number of programs, locations, and on camp occupancy. This is to ensure safety of the participants, instructors, camp staff, and our team members. We want you to be aware of some important decisions that have been made regarding this, and we are sharing those below with you:

- Average number of participants on a program is 24 as compared to 75 participants earlier.
- All instructors will undergo a Covid-19 test, and based on a negative test report will be allocated on the programs. All our instructors are either partially or fully vaccinated.
- All registered participants will need to undergo a Covid-19 test 48 hours before departure and share the negative test result before travelling with us.
- Daily sanitisation of campus facilities, safety check of campus staff, instructors, and participants.
- Regular sanitisation of vehicles used for program travel and safety check of the driving crew.
- Packed meals for en-route travel to minimise stops. And carefully selected locations for planned washroom breaks.
- Standby vehicle for any medical emergency.
- Consistent emphasis on washing hands, using sanitisers, temperature checks, etc.

* For a detailed conversation on the program SOP or Covid-19 safety guidelines do call us. As a responsible organisation we always work with the safety first principle.

Discover programs are designed for first time campers (9-12 years) to introduce them to basic adventure activities.

These 6/7 day programs focus on building confidence, self-reliance, and learning more about the self. The program experience encourages participants to step out of their comfort zone and kick-off a lifelong journey of adventure and love for nature.

Explore programs have a higher challenge level than the Discover programs. These programs stretch the participants and aim at developing basic competence in an adventure activity.

The 7/9 day programs go beyond self-focus, and also include care for each other, the environment, and the larger community.

Challenge programs have the highest level of adventure and thrill. Most of these programs are not run on a fixed campus, and participants set up moving camps. They plan and manage their chores such as cooking, cleaning, packing, etc.

These programs aim to build resilience, courage, and achievement orientation.

OCT 2021 Programs
